Permanent Race Committee

The Permanent Race Committee Members Representatives have done a great job to provide assistance for the selected Fleets responsibility and commitment in course selection and distance, iPad usage and scoring the day of their Regatta. All Race Committees have been full and usually getting all RC boats out and getting the races set for the day.

The Scoring should be published after the end of race and for sure will be on the web by the next day. The later Saturday evening races have prevented getting preliminary results published upstairs next to the beer tap. Chris is excellent in getting the scoring complete and Karen G. continues in software training. Another scorer would be helpful as well as the daily Race Committee's scorer on hand for any questions in boat identification or timing issues.

Race Calendar

The Dog Days Series is nearly complete and this Saturday will be the End of Series. There will be a lot of trophy's that need to be handed out and the dinners have been outstanding!

The Moonbeam Series had their second start last full moon and the Series will be complete August 19th. Trophy presentation to each class winners and Overall trophy's for both Keelboat and Multihull.

Race Logistics

"D" has been identified to out of position due to recent flooding. A ¼ mile to the South should be okay.

Every couple of weeks a handheld radio goes missing and thanks to Tom, a notice is put out and they have always been returned.
