

Jim Casto request for Prindle 16 PHRF numbers.

Existing **Prindle16** catamaran sail #8541 PHRF = 93.

New sail numbers, same PHRF

Prindle16 catamaran sail #8660 PHRF = 93.

New PHRF needed for non-class legal mainsail. (It's a square top, probably not much bigger, but ...)

Prindle16 ML catamaran sail # π (314) PHRF requested = **84**

Prindle16 standard Portsmouth Number = 77.5

Sail π is a "Larger than class legal" mainsail, so the "ML" modification applies, mod = 0.980

Modified DPN = 76.0

US Sailing conversion from DPN to PHRF: PHRF = (Portsmouth - 55) * 6,

Must include the "AYC correction" factor, a -42 PHRF adjustment to the value obtained using the US Sailing conversion.
