
From the AYC General Manager
Jackie Wheelless gm@austinyachtclub.net July, 2020

Reminder that Days Off for Spencer, Bobby and I are Mondays and Tuesdays.
Tom's days off are ½ day Saturday, ½ day Sunday, all day Monday.

The website has been updated slowly but surely over the past couple of years so that you can check availability of cabins, RV sites, shelters, work area and the hoist. You're now able to check certain amenities for particular dates so that you can manage your own reservations. It's still a Work in Progress but it seems to be working very well.

I think there's a large number of members who are attempting to access Member sensitive information without signing in on the website. If you don't sign in with your username and password, then you will not be able to access the Member Menu. The Member Menu has the Storage Request Form, the Online Member Directory, Board Meeting documents and other information for member's eyes only.

I continue to get a **massive** amount of calls on a daily basis from people searching for a place to launch or retrieve their boat.

Our lawn service will be doing the native field area lawn service tomorrow. This project usually takes all day.

The trash dumpsters and the recycling bin have been filling up. It's apparent that members are bringing their household repair remnants to the club and dumping it into the dumpsters. This week someone's fence panels were thrown in the dumpster and stuck in there. Please remember that these dumpsters are for AYC trash and recycling. TDS will fine us if we are discarding something that appears to be construction debris.

To clarify, just because a slip is empty does not mean that it is not assigned to a member who is paying for that slip. I'm having incidences of members being assigned to a slip that is supposed to be vacant and then finding a boat in it. Please be sure you are in your assigned slip and not another members'.

The dry storage area has proven to be somewhat of a project lately. There are slips that have way too many boats in them, boats that are parked willy nilly and numerous slips that have one or more boats parked in the grass behind the slip. Some slips that are supposed to be vacant have boats in them and some members have dropped their boats in dry storage without requesting storage. The Sea Scouts and Carolyn Howard are assisting me with trying to get things cleaned up and I thank them profusely!

The Dry Out Area is being monitored weekly by Harry Polly, I want to commend Harry on all of his hard work and his steadfast efforts to improve the accountability in Dry Out and the Work Spaces. Harry's created a "Lost and Found" for parts left behind in the work area, he's put an article about this in this month's Telltale.

The Workers Comp audit has been completed and submitted.
