From the AYC General Manager  
Jackie Wheelless gm@austinyachtclub.net

---

- The audit of our 2016 financial statements is ongoing. All of the information the auditors requested has been sent to them; however, the auditor who was leading our audit has relocated so our account is being moved to another auditor.
- There is 2 Student accounts in IPSO status. Michael Murray and Charles Packard have not been participating nor do they have a boat in the Junior Storage Area. Robin Drummond has paid \$20 towards her account and now has a balance of \$180.79. She has begun a new job and hopes to pay the balance off quickly.
- Our new accountant took over on June 1<sup>st</sup>. She is absolutely AMAZING! I'm convinced that AYC, BLC and RDC are in extremely capable and professional hands!!
- On the accountant note, she has requested that our reimbursement practice be changed a bit. Reimbursements will now be in the form of a check only, instead of in the form of a check or a decrease to membership dues. This will help us better account for the true amount of expenses related to AYC and will more accurately reflect total revenue from dues from membership. Thank you for your understanding and cooperation in this change.
- If you haven't seen the new and improved office yet, please check it out! It's light and airy and (according to one member) too clean! Diane Covert came, saw and conquered! It was a remarkably smooth operation. Thank you to Diane, Frans Dahmen and Coleman and Tom for making this project very low key, flawless and very successful.
- The Coke Box is going away. Coca Cola Enterprises will take over full service of a new coke machine downstairs. They will handle all product ordering and all money with the machine. The new machine will have 2 slots for water and 6 slots for sodas. The products will all be in 20oz plastic bottles and will all be \$1.50. The new machine should arrive in the next 2 weeks. There will be a slot that can be activated for credit and debit cards but it will not be activated at this time due to our intermittent Wifi connection.
