
From the Desk of the GM

I've waited to the very last minute to submit my report for reasons that are very apparent. The short of it is that the staff and I are working around the restrictions that have been put into effect. We are trying to continue to serve the club while staying away from each other and the members. Our work schedules are staggered so that if we need entrance to the office we're there one by one rather than as a group,

The bathhouses remain open so Tom is sanitizing them daily. Please do not try to enter when he has the CLOSED signs displayed.

The clubhouse, office and cabins remain closed. The office is also being sanitized daily.

Commodore Dane and I spoke this morning and plan to lockdown the pavilion beginning 5pm Thursday, March 26th. All boats should be in their assigned slips and not tied up at the pavilion.

Beginning Friday, March 27th, Spencer and Bobby will be sanitizing the ST boats and working 10 feet apart from each other to begin pavilion repairs to get it up and ready for the start of camp. They'll be wearing protective masks and gloves and isolating themselves from each other while working on this project. Once their project is completed I'll notify you that the pavilion has reopened.

As Travis County Judge Sarah Eckhardt stated, "The best enforcement is our responsibility to one another". As we all know, we need to protect our most valuable assets, the members and the staff.

Tom is able to continue working on projects as long as he can have the appropriate distance between him and others. While at the club, please be cognizant of where work is being done and help keep the appropriate distance. The barn is also on lockdown so that no one except Tom has access.

In other news, I've completed the AYC portion of the Commercial Insurance Package, our agent will now be sending it for quotes. As in past years, it'll probably take until mid May to get any renewal quotes. Our policies expire May 31st.

I'm sure everyone is finding creative (and not so creative ways) to stay occupied during our isolation period. For me, I'm entertaining kitties, breaking up kitty brawls and trying to keep kitties from sending emails for me.

EVERYONE STAY SAFE!!! I'm looking SO forward to seeing everyone again.....SOON I hope!
