October 2020 Board Report
John Maddalozzo
Building & Grounds Commander

The Building and Grounds Committee is looking forward to next year's pool season and getting bids and plans for pool fence modifications and a renewed pool deck. Thanks to Claudia Bartlett for help with getting bids from a pool fencing contractor to replace the one that didn't work out.

If you have been down below the clubhouse recently you will have noticed the new Adirondack chairs that add to the seating options on the patio. I'd love to take credit for that but credit goes again to others who decided we needed these seating options. There are a number of donors. I do not have all the names at this time to properly credit.

Respectfully Submitted,

John Maddalozzo
Building and Grounds Commander
